DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Frelinger-Harmon Farm is located on Harmon Road in the small farming community of Cove. The farm is surrounded by rolling hills and includes a plank house, frame barn, and several frame outbuildings.

The house is a two-story, gable-roofed dwelling with an asymmetrical four-bay facade. The facade points east and the east and north elevations are covered by a one-story, shed-roofed porch. A one-story, shed-roofed pantry is attached to the south corner of the west elevation.

The house rests on a cut stone foundation and is covered with aluminum siding over asphalt roll siding. The windows are two over two sash, except on the facade, where the windows are one over one sash. All window surrounds have been obscured by the aluminum siding. The first floor of the facade has two doors, alternating with two windows. The windows each have a small upper sash of stained and leaded glass, and a large lower sash of a single pane of clear glass.

The roof is covered with asphalt shingle. There is one interior brick stone chimney at the ridgeline, slightly south of center. The porch roof is also covered with asphalt shingle and is supported by modern wrought iron posts with a wrought iron balustrade. Old photographs of the house show that the porch roof was originally supported by round wooden columns and a jigsawn balustrade.

The interior of the house is unknown.

Northwest of the house is a large frame bank barn. The barn is covered with vertical boards and its gable roof has a cross gable on its south elevation. Also on the south is a large modern silo.

North of the house are a corncrib and several small farm buildings. South of the house are a concrete block smokehouse, now used for storage, and the site of a spring which has disappeared and reappeared elsewhere on the property.

Southeast of the house are two frame outbuildings. Farther from the house is a combination chicken coop and hogpen, now used for storage. The nearer building, also now used for storage, is said by the owners to have been a combination machine shop and distillery. The two-story building is covered with german siding and its roof with tarpaper. The building has two over two sash windows and large garage doors on its south elevation. On the interior, a staircase runs up the east wall. From the ceiling on the ground floor hang several sets of drive pulleys which were used to power machinery.

SPECIFIC DATES	ca. 1880	BUILDER/ARCHITECT	? Frelinger
----------------	----------	-------------------	-------------

STATEMENT OF SIGNIFICANCE

The owners state that the farmhouse was built by a man named Frelinger, approximately 100 years ago. Subsequently the farm was purchased by the Harmon family, which has owned it ever since. The wife of the present owner was a Harmon before she married. The Harmons were supposed to have operated a distillery here before the 1920's.
